

# Danish Battery Society

First meeting

# Agenda

- 09.00 Welcome and introduction to Danish Battery Society
- 10.00 General meeting
- 10.40 Coffee break**
- 11.00 Session I: Updates from universities part I
- 11.50 Session II: Updates from industry part I
- 12.50 Lunch**
- 13.30 Session III: Fundamental considerations
- 14.30 Session IV: Updates from universities part II
- 15.20 Coffee break and cake**
- 15.40 Session V: Updates from industry part II
- 17.10 Program ends
  
- 19.00 Dinner at Hotel Prindsen in Roskilde

# Danish Battery Society

Presentation of the society

# Why a Danish Battery Society?

- The battery research is blooming again at the universities around the country and a number of Danish companies are considering or already focusing on implementing batteries in commercial products.
- The active players in Denmark are often small groups and to compete internationally, we see a need for exchange of knowledge and experience, i.e. characterization methods, lab facilities, types of batteries and market trends.

# What is the Danish Battery Society?

- An independent professional organization of persons, institutions and companies working with batteries in Denmark.
- By organizing open meetings and events, DBS will secure a high level of knowledge sharing within research and application of battery materials and technologies between Danish companies and research institutions.

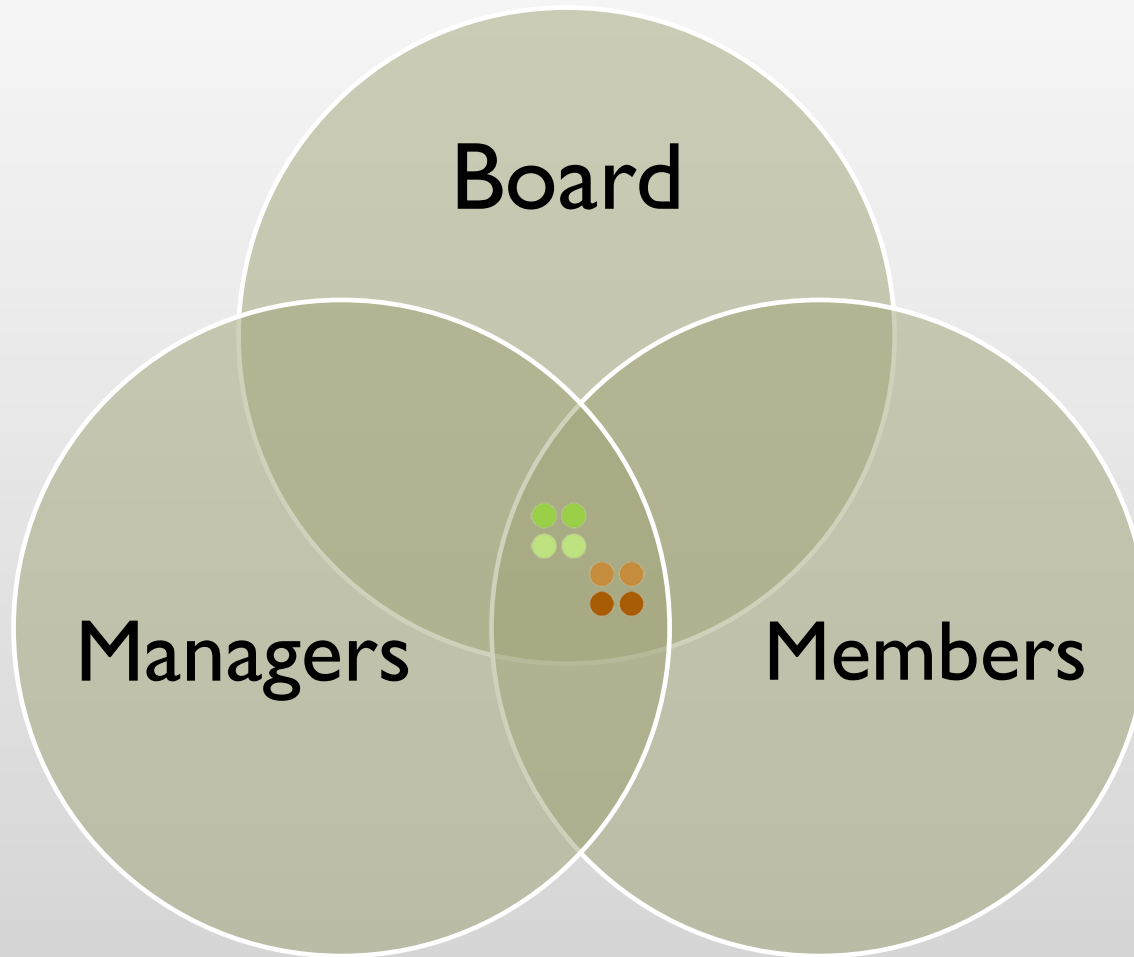

# Main goals of DBS

- To promote the cooperation within electrochemical energy storage in Denmark through organization of meetings and events for academia and industry.
- To be the most relevant forum in Denmark for all activities related to the academic and technical aspects of batteries.

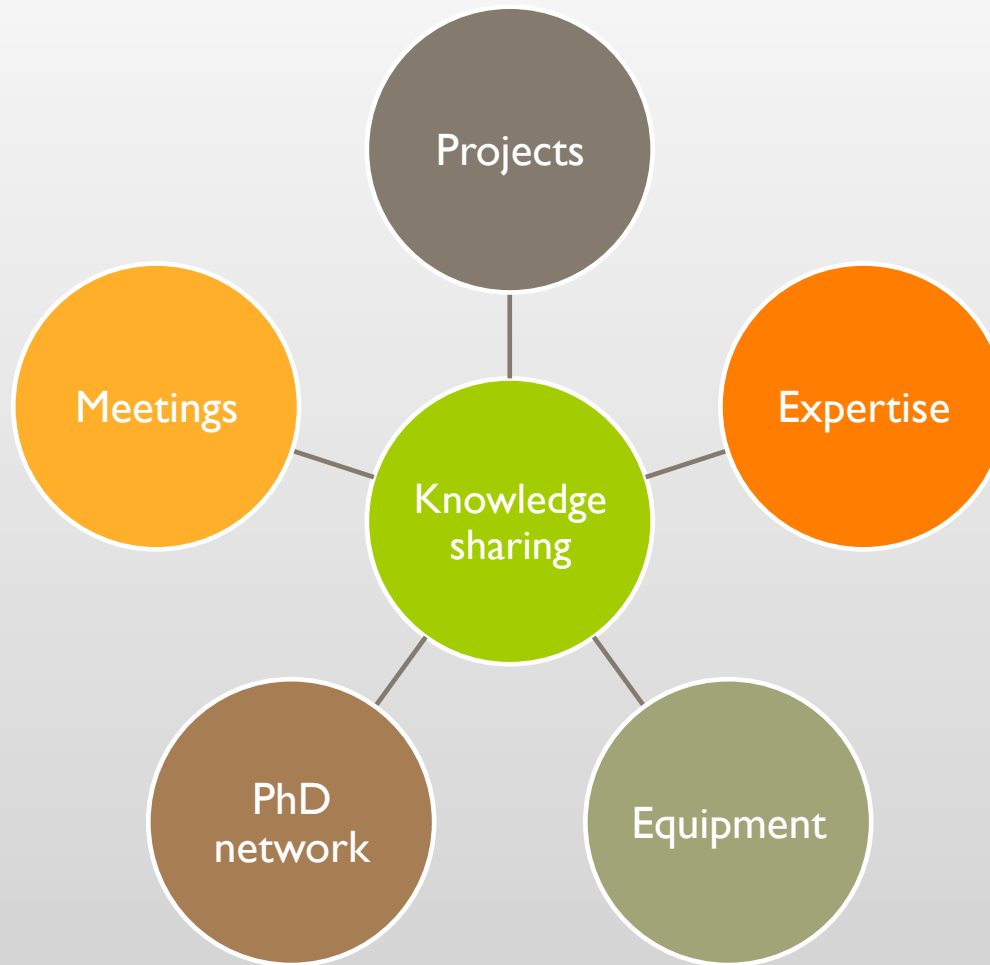

# Organisation

# Activities in DBS

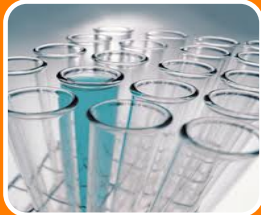

# Activities in DBS

## Annual meeting

- Update on projects with Danish participation
- International speakers
- Networking

## Research meetings

- Specific topics (e.g. coating and electrochemical testing)
- Both local and national meetings
- Development of national best practise

## Company meetings

- Legislation on safety and recyclability
- Update on new and emerging technologies
- Startup meetings

# Online initiatives

- News feed (Universities)
  - Research published
  - Funded projects
  - PhD positions
- News feed (Companies)
  - Products launched
  - Legislation passed
  - Recruitment

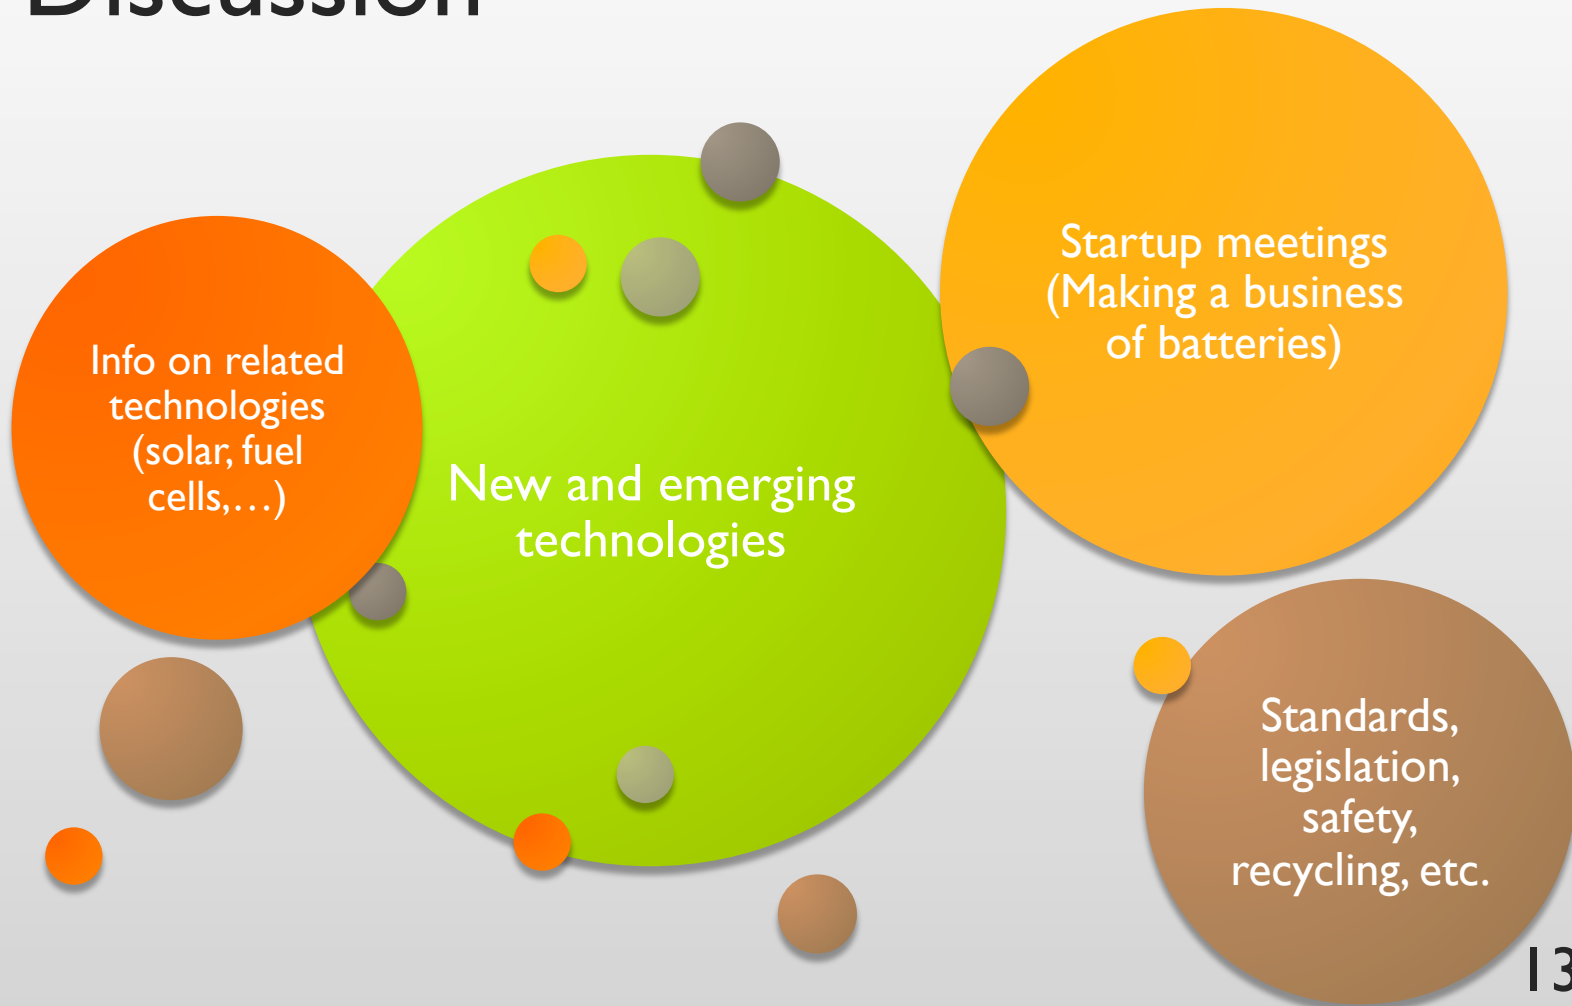

# Ambitions for the future

- **Hosting of an annual conference**
- **Decentralized meeting culture**
  - With board member candidates from all regions in Denmark, smaller workshops can be held regionally
- **Communication with other societies – ABC or NBS?**
- **Represented at important international conferences**
  - Paying DKK 1000 or similar to members for an executive summary of important progress presented at a conference
- **Public voice** - DBS as a contact point to press and consumers
- **Paperless** - for the environment and cost reduction
