

The Danish Electrochemical Society

Call for Contributions - First Announcement of the Annual Meeting of The Danish Electrochemical Society, 9-10 October, 2014

Venue: Radiometer Medical, Åkandevej 21, 2700 Brønshøj

Abstract Deadline: 1st of July, 2014

Registration Fee: The registration fee is 1200 DKK and includes the conference dinner (the 9th) and lunch on the second day (the 10th). Payment and registration details will be published in the second circular for the conference.

The Meeting: The Danish Electrochemical Society (DEF) is organising an annual two day conference on "Electrochemical Science and Technology". The ambition of the conference is to foster an interdisciplinary interaction between students, researchers and industry professionals working in the broad area of 'Electrochemical Science and Technology'.

Another ambition of the conference is to reveal and link together the many different places in Denmark and Scandinavia using electrochemistry in academic as well as industrial settings. The conference will mainly focus on contributions from Ph.D. and Post-Docs in the form of Oral or Poster presentations.

There will be invited contributions from academic and industrial experts. The society welcomes all students to use the conference as a platform for evaluating their research on a wider perspective, and a training ground for scientific presentations and discussions.

Topics: Contributions covering developments in fundamental and applied research in electrochemistry, and relevant experimental techniques, from a broad range of areas including (but not limited to) energy conversion (fuel cells / electrolysis / solar cells) and storage (batteries), electrocatalysis, corrosion, physical and analytical electrochemistry, (bio-)sensors, ionic liquids, and chemically modified electrodes, are strongly encouraged.

Speakers: This year's meeting has a number of invited speakers concentrating on biosensing, electroanalytical chemistry / medical sensors, and electrochemistry on the nanoscale. Plenary (invited) talks will be given by:
-> MD Jesper H. Wandrup, Radiometer Medical
-> Assist. Prof. Tim Albrect, Imperial College, UK
-> Professor Lo Gorton, Lund University, Sweden
-> Professor Dermot Diamond, Dublin City University, Ireland.

Abstract Submission: Abstracts for Oral (15-20 min) or Poster (A0) presentations, max one A4 page, should be submitted by email to sekretaer@electrochemistry.dk as a Word (.doc/.docx) file. The abstract should be written in English (UK). Authors are requested to use the template for abstracts that can be downloaded from <http://www.electrochemistry.dk/images/stories/DEF-template.doc>

Authors are requested to indicate their preferred type of presentation (poster/oral) during abstract submission.

Contributions from students do not need to be based on a completed research programme.

Notification of Abstract Approval: Proposed papers for oral or poster presentation will be selected by the board of the Society. Authors will be notified regarding acceptance and type of presentation by email by the 15th of July.
