

# Annual Meeting of The Danish Electrochemical Society

1-2 October, 2015

## Call for Contributions - Second Announcement

**Venue:** Copenhagen University, Department of Chemistry, Universitetsparken 5, 2100 Copenhagen, DK

**Abstract Deadline:** 1st of September, 2015

**The Meeting:** The Danish Electrochemical Society (DEF) is organising an annual two day conference on "Electrochemical Science and Technology" from Oct. 1<sup>st</sup> 2PM to Oct. 2<sup>nd</sup> 4PM. The ambition of the conference is to foster an interdisciplinary interaction between students, researchers and industry professionals working in the broad area of "Electrochemical Science and Technology". Another ambition of the conference is to reveal and link together the many different places in Denmark and Scandinavia using electrochemistry in academic as well as industrial settings. The conference will mainly focus on contributions from Ph. D. and Post-Docs in the form of Oral or Poster presentations.

The society welcomes all students to use the conference as a platform for evaluating their research on a wider perspective, a training ground for scientific presentations and discussions as well as networking.

**Topics:** Contributions covering developments in fundamental and applied research in electrochemistry, and relevant experimental techniques, from a broad range of areas including (but not limited to) energy conversion (fuel cells / electrolysis / solar cells) and storage (batteries), electrocatalysis, corrosion, physical and analytical electrochemistry, (bio-) sensors, ionic liquids, and chemically modified electrodes, are strongly encouraged.

**Invited Speakers:** This year's meeting has four invited speakers who are experts on electrocatalysis (theory and experiment) and photoelectrocatalysis:

- > Professor Thomas J. Schmidt, ETH Zurich and Paul Scherrer Institute, CH
- > Assistant Professor Darren Walsh, Nottingham University, UK
- > Professor Jan Rossmeisl, Copenhagen University, DK
- > Associate Professor Peter C.K. Vesborg, Technical University of Denmark, DK

**Abstract Submission:** Abstracts for Oral (15 -20 min) or Poster (A0) presentations, max one A4 page, should be submitted by email to [sekretaer@electrochemistry.dk](mailto:sekretaer@electrochemistry.dk) as a Word (.doc/.docx) file. The abstract should be written in English. Authors are requested to use the template for abstracts that can be downloaded from <http://www.electrochemistry.dk/images/stories/DEF-template.doc>

Authors are requested to indicate their preferred type of presentation (poster/oral) during abstract submission and if they are PhD student. There will be **prices for the best oral and the best poster presentation**. Contributions from students do not need to be based on a completed research programme.

**Registration Fee:** The registration fee is 1600 (1500) DKK for non-members (members) and includes the conference dinner on the first and lunch on the second day of the conference. For payment and registration, please go to: <https://www.eventbrite.com/e/2015-meeting-of-the-danish-electrochemical-society-tickets-18048664040>

**Notification of Abstract Approval:** Proposed papers for oral or poster presentation will be selected by the board of the Society. Authors will be notified regarding acceptance and type of presentation by email by the 10th of September.
